Honokong, August 15th, 1905.

Hongkong, as we have on several previous occasions pointed out, has for various reasons enjoyed comparative immunity from the turmoil and trouble incidental to the performances of Boycott demagogues It was, of course, against nature that the natives here, many of them imbued with the pugnacity of the men of Canton, should feel reconciled to inglorious inaction during such a pretty fight; such a unique opportunity, from their point of view, for making history. We are led to bélieve, by a well informed representative of the Chinese community, that there has been an actual disinclination amongst the really responsible members thereof to join in the movement; but that latterly their hands have been forced by its popularity. It is not difficult to understand that great discretion was and is required in arranging to support such an agitation within a British colony; and we are curious to learn how it came about that Saturday's meeting of the Chinese Commercial Union came to be attended by such a rabble about eight hundred irresponsibles, we are told, presuming to express disapproval of the official communique which forbade the holding of the meeting. The members of that Union had, we suppose, at least a tacit right to assemble qua Union; but the members could scarcely have been ignorant of the

requirements and restrictions of the Ordinance of 1888, for the Regulation of Chinese. Clauses 49 and 50 Chapter VII., referring to "placards" and "-meetings," are as follow :

"No person shall post up or exhibit or cause to be posted up or exhibited in or near any street any public notice or proclamation in the Chinese language without the permission of the Registrar General. The Registrar General may rofuse such permission whonever he considers that the publication of such notice or proclamation would be prejudicial to peace or good order.

No Chinese shall hold or be present at any Chinese public meeting whatever, not being a meeting solely for religious worship, without a permit under the hand of the Governor, which may be issued to the occupier of the house in or near which the moeting is to take place, or

to the person convening such meeting? The last clause dates from the year 1858, when provision was made for written licences which would permit "the holding of Meetings to consider in a lawful Way the Redress of supposed Grievances," an apt phrase when applied to the present affair. The first was originally a temporary provision, which was assented to by His Excellency W. H. MARSH in October, 1884, "in view of the disturbed state of the Chinese population in this Colony." The wording was identical; and we can think of no subject more likely to prejudice "peace or good order than the present boycott as it seems to be understood by the common people. The Government is admittedly anxious to permission of the Registrar General.

be considerate and indulgent to the Chinese community; but we do not think for one moment that such placards as have been posted elsewhere will receive the required present we hear of no application to use such placards; but it is quite clear that the typical meeting is not to soberly deliberate ways and means for carrying into effect a policy decided upon, but rather to spread the disturbing news of what at present must be described in the old-time phrase as "supposed Grievances." For President. Roosever has promised that the real grievances shall be stopped: Mr. TAFT Secretary of War, and other leading members of the American Cabinet, have lifted -no uncertain voices - in- sympathy - and - on couragement of a bona-fide Chinese protest: and the only reasonable course for the Chinese, who have vindicated their spirit and shown their power, is to a wait the result of Wu Ting-Fang's mission to Washington. Yesterday the Chinese Commercial Union met and decided to petition His Excellency the Governor for permission to hold a public meeting. As such a meeting is now supercrogatory, and as it seems almost impossible to keep these agitators to the point, when they do meet,

we suppose it not unlikely that the appli-

cants will be advised to defer their project-

to a more convenient season. Under the

French Treaty of Tientsin, Article XIV.

we understand the Chinese Gövernment

is being asked to stop the placards and

meetings, which have quite got out of hand,

so much so that some of the originators of the movement have taken alarm. By that Treaty, the Chinese Government undertakes to dissolve all associations whose action interferes with free competition in trade, or tends to the creation of monopolies in any form. These boycott assemblies have not only done that, but as recent news indicates, they have been seriously threatening foreign trade in general, and thus opening the way for a return to intolerable state of things existing when foreign trade was undergoing its early struggles for a footing. It is patent that in advocating the dis-

couragement of the movement at this stage. our motives are above suspicion. A boycott of American commodities means an immediate gain to all the others, British, German, French, Italian, and so on. With self interest like that to help, it is only natural that the Chinese should rely on the sympathy of all non-American traders. That they have not got it strengthens our opinion that the boycott has got out of hand through bad management and methods, and is now a common danger. It has benaved like fire—the simile has been used-by a contemporary, but is too obvious to enjoy copyright—which is a "good servant but a bad master." The boycott is no longer servant to a cause, but master of a situation in which passions and projudices whose overcoming has been the laborious task of years, threaten to overwhelm everything. And nothing can be lost by a "masterly inactivity" at this stage. thing can be taken up again where it leaves off-it the mobs of Western America should get their way. It is eminently undesirable in the meantime, to take the local view of it that Hongkong should be upset by a belated reinforcement of a movement that is already

being escouraged in other/places.

The Moscow Viedomosti, according to a telegram in the N.-C. Daily News, says that Russia is not compelled to ask Japan's terms, as Russia is still unbeaten. Japan must evacuate Manchuria, whose fate will be settled between Russia and China. That the Japanese should garrison Manchuria would be an internutional disgrace.

A Shanghai critic of the boycott says " the authors of those statements know they are untrue-or at least they possess ample opportunity for informing themselves of the facts. They have descended from the platform of honest and fair discussion to the art of the demagogue, and their effort to provoke the masses to an unwarranted hostility to Americans cannot receive too severe censure."

It is reported that the Szechuan-Hankow railway is about to commence working. Vicercy Hsi-Liang has decided to employ Chinese engineers so as to shut out French engineers. But owing to the scarcity of Chinese railway experts it is proposed to engage Japanese as they are cheap and familiar with the people. Here is illustrated the growing tendency, but, comments the Tientsin Times, the Viceroy will find the

Sun, the Commissioner for the pacification of the Swatow district, has done his work so thoroughly sthat he has made influential enemies. Some of these have forwarded a petition, without names, to the Vicorcy at Canton. He, strangely enough, takes notice of the paper sent to him through the post and unbacked by the names of the petitioners. The charges of undue haste and corruption are altogether at variance with the name which Sun has made for himself on the country side, says a contemporary.

Four or five days ago we published a Shanghai telegram referring to action in re boycott by the Chamber of Commerce there. The N.-C. Daily News now says:-The statement made yesterday morning in this column, that the General Chamber of Commerce had sent a telegram anent the boycott to the Doyen of the Diplomatic Body at Peking was premature. A telegram on the subject of the probable injury

to foreign trading interests generally, if the present agitation is continued, has been addressed by the China Association to the British Minister, th.)ugh Sir Pelham Warren. and the General Chamber of Commerce has decided to address the Senior Consul here on the same subject.

A foreign merchant in Canton is alleged to ave said that the retaliating on Americana by boycotting is a very civilized method. In America the labour party not only causes trouble against the Chinese labourers but have boycotted Chinese goods for a long time now, and the U.S. labour party do not deal with any American shop which sells Chinese goods. Such being the way of the American labour party it is quite right on the part of the Chinese to follow that example. - Sinwanpao.

THE CIRCUS.

The Australian Circus of Messrs. FitzGorald opened its season at Causeway Bay last night, and more than satisfied a very large number of spectators. The sensational performance of the Herbert Troupe of serial acrobats was enough to earn a verdict which the novelty of seeing wild beasts performing away from the customary small cages amply confirmed. The show was declared to be the best seen in Hongkong.

So far is hearsay. From observation, what our reporter could see was of a high-class order in the circus world; but the seating arrangemonts are not such as to give an uninterrupted view to all. The performances in the caged-iu ring were invisible to him. The tent seemed slightly bigger than Harmston-Love's, but the ring was about the same. The electric lightcould not be called good; but the naptha or other gas lights belonging to the Circus made things bright. The tent was packed with people; the number of Europeans being unusually large. The evolutions of Miss Dagmar's troop of nine were followed by a "tramp and bicycle" act, (excellent) and the usual elephant and pony tricks. After the eternal clowns, with sooty plates, and the insistent Mazeppa ride, Mrs. Fitzgerald showed off her clever dogs. Half of the audience was standing by now, and the other half feeling cross. The jockey tried to do Welby Cooke's act of jumping feet first on to a galloping horse, but gave up after four or five attempts. Six young ladies gave an attractive cake-walk and song performance. And that was all up to the interval. There were a dozen other things to follow.

THE BOYCOTT AT SHANGHAI.

The N. C. Daily News of the 8th inst. reports:-On Sunday afternoon at 5 o'clock nearly 2,000 persons, representing the various trades in Shanghai, met in the auditorium of the Wupen Girls' School, outside the West Gate of the Native City, to consider further steps to be taken regarding the boycott on American manufactures. Mr. Ma Siang-peh moved a resolution that all contracts for goods in the United States, which up to the 10th instant had not been reported at the U.S. Customs, should be cancelled, after which an inventory of all American goods in Shanghai. and on their way to this port must be taken and a stamp placed on such goods so that people may buy them knowing that these goods were contracted for prior to the boycott. This resolution was accepted by the meeting, after speeches by several other persons, and confirmed by Mr. Sn Pao-sen head of the Piece Goods Guild, who undertook on behalf of himself and his fellow-merchants in the piece goods business to act up to Mr. Ma Siang-peh's resolution Mr. Sn Pao-sen was loudly cheered and the meeting ended.

Canton 14th August. A UNIVERSAL TRICK.

Last week Kwan Man Yum, a military student of the Cheong Pin Hok Tong (military college for training officers), who has been in the habit of inventing stories to obtain leave-ofabsence from the college, was most severely and cruelly punished by His Excellency Viceroy Shum. It appears that on Wednesday last Kwan again got tired of schooling, and in order to obtain leave he concected a story by telling the Professor that his grandmother was seriously ill, and requested leave of absence for five days to go home and nurse his poor grandmother. Leave was granted to him, and in the afternoon he was enjoying himself most gloriously with "Sing Song" girls in a flower boat. Somebody conveyed this piece of news to the professor of the college who on the following day sent for Kwan and abridged his leave. The professor was puzzled because he could not think of any punishment to impose on Kwan which would deter the incorrigible student from repeating his tricks, so he reported the matter to Vicercy Shum. His . Excellency was very angry and directed the professor to hand Kwan over to the Poon Yii Magistate to wait his orders. On the 10th instant the Viceroy ordered the Magistrate to cut Kwan's left ear, and deported him to his native village (Shim, Tak) where he is to be under vigilant serveillance of the local officials. An intimate friend of the Viceroy at a leves yesterday, broached this subject and the Viceroy remarked that it was the most lenient punishment he could impose on Kwan for an offence of this kind.

A TLS. 3,000,000 LOAN. Owing to difficulties experienced by the Provincial Treasury in meeting the enormous public expenditure I hear that Viceroy Shum has been trying to obtain a loan of three million tacks. His Excellency has approached a European Bank here which was quite willing to advance the amount at a very cheap rate of interest, but demanded certain large railway concessions in the Kwangtung Province to which the Vicercy would-not agree, and the negotiations eventually fell

Yesterday I was informed that the Viceroy is negotiating for the loan through a certain very wealthy Chinese gentleman of Hongkong. The interest off red is 12 per cent. per annum, and the loan is to be repaid in ten annual instalments of 300,000 taels each.

He is willing to fleat the loan provided the Vicercy obtains consent from the Wai-wu-pu, MORE EARTHQUAKES.

Another earthquake took place here at 8.30 on Saturday night. The she k lasted about two seconds and was felt by most of the residents in Shameen. Furnithre and articles in the houses were seen to move, but fortunately no accident

MACAO.

(FROM OUR CORRESPONDENT.)

Macao, 13th August.

THE BARTHQUAKES. Yesterday (Saturday, there were severa severe earthquake shocks here, which frightened us all very much. There was a very violent--shock at half past eight, one which cracked the walls of the Leal Senado. The gaol was totally rained, necessitating the removal of the prisoners at eleven o'clock at night to the police barracks. The fantan house in Rua do Jago was crucked from top to bottom, while another in Rua da Cadeia. just in front of the gaol, also suffered. Many people were to be seen lying down in terror on the mountain paths. Here the shocks were not felt so much. It seems that the full force of the earthquake was felt in the Large do Sanado, and in the Chinese quarter, which is commonly known as the Bazaar. About two thousand people sought refuge at the Avenido, where they spent a miserable night. After the first shock at half past eight there were a dozen

more. Everything was quiet after two o'clock

No casualty or loss of life has been as vet recorded; terror still prevails, however. There is a tremendous exodus from Macao to Hongkong, while other people are talking of living in matsheds on the hills.

AMERICAN BOYCOTT AT HONGKONG.

A preliminary meeting of Chinese, in connection with the boycott of American goods locally, was held at the Chinese Commercial Union yesterday, about 33 persons being present.

Those present decided to petition H.E. tha Governor for permission for the local Chinese to hold a meeting in connection with the boycott, as under an Ordinance passed in 1888 it is illegal for them to assemble together without that permission.

Many local firms are now publishing notices to the effect that having no American goods in stock, they are unable to supply customers with

SUPREME COURT.

Monday, 14th August.

BEFORE SIR F. T. PIGGOTT (CHIEF JUSTICE).

IN ORIGINAL JURISDICTION.

THE FUE ON INSURANCE AND GODOWN CO. v. THE TACK HING FIRM AND ANOTHER, The plaintiff company claimeds from the defendants an amount of \$30,000 due on promissory note made on the 29th day of

Soptember last by the Kwong Yik We firm, of which Li Kin Shek is muster.

Mr. H. G. Calthrop, instructed by Mr. H. C. Builey (of Messrs, Johnson, Stokes and Master) appeared for the plaintiffs and informed His h rdship that he understood Mr. Pollock appeared no longer for the defendants. Counsel continued-The plaintiff in this case suing on a promissory note which was on the 29th September last by the Kwong Yik Wo firm, of which Kin Shok is master. It was made for the sum of \$30,000 and guaranteed by the defendants at the Tack Hing firm, of which Ho Tung Shan is the master. At the same time a security of 20,000 bags of flour was given to the plaintiffs.

Yeo San Sam, Secretary to the Fuk On Insurance Company, stated-On the 29th September last I advanced \$30,000 to the Kwong Yik Wo, taking a promissory note as became due on the 26th December last and I informed the defendants, by letter. After the due date I saw Ho Tung Shan and naked for an extension of time. saw him again to day, when he asked for a reduction of my claim. The Kwong Yik Wo gave us as security about 20,000 bags of flour after the amount became due. This was sold and realised \$24,678.29, thus reducing our claim to \$5,681.71. No interest has been paid since September, but should have been, at the rate of \$120 per \$10,000.

His Lordship gave judgment for the plaintiffs together with interest and costs.

YUEN HANG KIN AND I. P. MADAR v. LI SHEK PANG.

The plaintiffs claimed (a)-an injunction to restrain the defendant, his servants, workmen and other agents, from trespassing on the plaintiff's property at No. 86 Swatow Lane, and from digging up, or continuing to dig up the ground of the said premises, or otherwise endeavouring to connect drainage of the defendants premises, Nos. 1 to 17 Amoy Lane, with that of plaintiff's premises Nos. 2 to 18 Swatow Lane; (b) the sum of \$1,000 as damages for such tresposs and digging as aforesaid.

Mr. H. E. Pollock, K.C., instructed by Mr H.W. Looker (of Messrs. Deacon, Looker and Dencon) represented the plaintiffs, and Mr. H. G. Calthrop, instructed by Mr. E. Bonner (of Messrs, Dennys and Bowley appeared for the defendant.

Mr. Pollock-As Your Lordship is aware we are claiming an injunction, or in the alternative damages. There is not likely to be repetition of what is complained of, as I understand the work is practically finished.

Mr. Calthrop-The plaintiffs have got an injunction to prevent us finishing it. Some years ago when arrested, these houses were built with this drain draining both premises which has been or is being, improperly used, now belong to, the plaintiffs and defendant. As late as 1902 both these premises belonged to the plaintiff. When these proceedings were com: the law against the immigration of Chinese are being held, speeches made, literature distrimenced we set up as a defence that the drain was labourers, skilled or unkilled, to secure the buted, and delegates elected to attend larger an old one which we had been using for years. When it did not satisfy the requirements of the Sanitary Board, both plaintiff and defendant had to put it in order. The plaintiffs say we tious action of our diplomatic and consular states that a native evengelist was an influent defense made of sugar production in the Philip anti-American agitation, whereupon the local trespass by going on their land, but they do not say under what circumstances we went on their land. We were compelled by the Sanitary Board to repair the drain, and that is what the plaintiffs are complaining about. The affidavit we put forward shows conclusively that we have used this drain all the time we have been in possession of the premises. I would ask Your Lordship to dry the case on affldavits.

Mr. Pollock-My friend's suggestion is very reasonable one, and it would be a great saving of expense to all parties if Your Lordship would try the case on affidavits.

His Lordship agreed to try the case on the affidavits, and ofter hearing the arguments of counsel, reserved his judgment.

AMERICAN PROCLAMATION REGARDING THE BOYCOTT.

The Chefoo Daily News publishes the follow ing :- The White House, Washington, June

To the Acting Secretary of State. The State Department will immediately issue a circular to all our diplomatic and consular representatives in China, setting forth the following facts and stating that it is issued by

direct order of the President: Under the laws of the United States, and accordance with the spirit of the treaties negotiated between the United States and China, all Chinese of the coolie or labouring class-that is, all Chinese labourers, skilled or unskilled -are absolutely prohibited from coming to the United States, but the purpose of the govern ment of the United States is to show the widest and heartiest courtesy towards all merchants, teachers, students, and travellers who may come to the United States, as well as towards all Chinese officials or representatives in any capacity of the Chinese Government. All individuals of these classes are allowed to come and go of their own free will and accord, and are to be given all the rights, privileges, immunities, and exemptions accorded the citizens and subjects of the most favoured nation. The President has issued special instructions through the Secretary of Commerce and labour that, while labourers must be strictly excluded, the lay must be enforced without harshness, and that all unnecessary inconvenience and annoy ance towards those persons entitled to enter the United States must be scrapulously avoided The officials of the Immigration Department have been told that no harshness in the adminis. tration of the law will for a moment security. The defendant signed as guaranter, interacted, and that any discourtesy shown to attaching the name of his firm. The note Chinese persons by any official of the Government will be cause for immediate dismissal from

The status of those Chinese, entitled to freely enter the United States is primarily determined the certificate provided for under section 6 of the Act of July 5, 1884. Under this law - the diplomatic and consular representatives have, by direction of the President, been instructed before visiting any cartificates, strictly to comply with the requirements of that portion of section 6 which provides as follows Any such diplomatic or consular representative whose endorsement is so required is hereby empowered, and it shall be his duty, before endorsing such certificates as aforesaid, to examine the truth of the statements set forth in said certificates, and if he shall find, upon examination, that may of the statements contained therein arountrue, it shall be his duty to refuse -Yemon-with a view to abolish the religious brother anugly moored, with its wented in to endorse the same.

The certificate thus visced becomes prima facio evidence of the facts set forth therein. The immigration officials have now been specifically instructed to accept this cartificate, which is not to be upset unless good reason can be shown for so doing. Unfortunately, in the past it has been found that officials of the Chineso Government have recklossly issued thousands of such certificates which were not true and necklessness has also been shown the past by representatives of the American Consular service in viscing these certificates.

The purpose of this Government is to make these visee certificates of such real value that it is rule to accept them here in the United. States This will result in doing away with most of the causes of complaint that have arisen. The Chinese student merchant, or traveller, will thereby score before leaving China a certificate which will guarantee him against any improper treatment. But in order that this plan may be carried outr it is absolutely necessary that the diplomatic consular officers, instead of treating their work of viscing these certificates as perfunctory, shall understand that it is one of their most important functions. They must not issue any such certificates unless they are satisfied that the person to whom it is issued is entitled to receive it, and they will be held to THE ANTL-AMERICAN AGITATION a most rigid accountability for the manner in which they perform this duty. Hongkong, 15th August, 1905. IDENTIFICATION BY FINGER PRINTS.

A London paper says that evidence in a case at Rochester Quarter Sessions vindicated in an indisputable manner, the value of finger-prints as a means of criminal detection.

_ A few weeks ago a man was charged before the Rochester magistrates with burglary at a house in Strood, and when asked for his name and address he replied: "John Smith." Headded that this was not his real name, and although he pleaded guilty he said he wanted to test the value of the Scotland-yard finger print system. "I have been convicted twice before he told the magistrates, "but I want the police to tell me who I am, If they find me out, I will admit it at once." "Smith" was thereupon committed for trial and the sequel took place at the Rochester Sessions. The police explained that while awaiting trial "Smith" gave every matter what you pay facility for having his finger-prints taken. This was done, and sent to Inspector Collins, chief of the Scotland-yard finger-print department with the result that "Smith's" real name was found to be Frank Cotton, whose previous convictions were for theft and housebreaking. "He received three months hard labour at Bow-street eight on months ago, and four months' hard labour at Exeter early this year.' remarked a detective. "Smith," who admitted the accuracy of the test, was now sent to prison for ten months.

The Foochow Echo says:-The facts of the

Consulate at Amoy, are as follows. Mr. Ands. son, the Consul reports that on the night of the 18th July, the flag halyard of the American Consulate flag pole was pulled down and a nuisance committed at the base of the pole and a placard against Americans posted on the pole evidencing a direct and intentional insult to the American flag. He wrote to the Taotai stating the circumstances and he promised to punish the offenders but made no amends for the insult. Nor has he arrested any one in this connection. THE CASE OF MR. BENNERTZ.

The following letter, addressed to Mr. E. S. Little, as representative of the Shanghai merchants interested in this case, was published by the N.-C. Daily News :-H.B.M. Consulate-General,

Shanghai, August 5th, 1905. Sir,-I am instructed by His Majesty's Consul General to inform you that he is in receipt of a telegram from His Majesty's Minister on the subject of the Bennertz case, to the following effect :-

The Consul-General is directed to inform the merchants, concerned that H.M. Cousul at Chargsha and the Legation are resisting the action of the local Chinese officials in regard to likin, and that the Governor has recently been directed by the Wai Wu Pu to arrange matters with the Consul. H.M. Minister also-requests that evidence of the boycotting complained of should be supplied to H.M. Consul at Changsha

After Most Awful Suffering Ever Experienced — Eight Doctors and Many Remedies Failed to Do a Cent's Worth_of Good.

THANKS TO CUTICURA IT IS ALL OVER NOW

"I was troubled with sore hands, so sore that when I would put them in water the pain would nearly set me crazy, the skin would peel off and the flesh get hard and break, with blood flowing from at least fifty places on each hand. Words could never tell the suffering I endured for three years. I tried eight different doctors, but none did meany good, as my hands were as bad as when I began. I also tried many remedies, but none of them ever did me one cent's worth of good. I was discouraged and heart-sore. I would feel so bad mornings, to think I had to go to work and stand the pain for ten hours, I often felt like giving up my position. I would have to wrap every finger up separately, so as to try and keep them soft, and then wear gloves over the rags to keep the grease from getting on my work. I had to wear gloves at night; in fact, all the time. But thanks to Cuticura, that is all over now. After doctoring for three years, and spending much money, a single box of Cuticura Ointment ended all my sufferings. It's been two years since I used any, and I don't know what sore hands are now, and never lost a day's work while using Cuticura. - Thomas A. Clancy, 310 North Montgomery St., Trenton, N. J."

To ensure a natural movement of the bowels, it is most important to take plenty of exercise every day. Many men and women don't do this, and they become more or less coative, sometimes going two or three days without a passage from the bowels. This is a very serious thing, not only because constipation makes our food and blood impure, but because the prolonged presence of waste matter in the bowels strains the muscular walls, eventually paralysing them, so that instruments have to be used to

remove the impurition. -Those who cannot get enough exercise, or any regard for the souls of his people:—whose work is sedentary, should use Donn's. FASHODA.

[FROM A FRENCH CORRESPONDENT.] No one in France to-day has apparently a good word to say in favour of Col. Marchand of Fashoda fame. From being the idel of Parisians, he has become their scapegout. The French maintain that qui s'excuse, s'accus This is only too true as the Colonel has found to his cost. In trying to give a correct account of the incidents leading up to his nufortunate expedition to Fashoda some years ago, he has once more got himself in troublehe never seems free from it of late. Among other things, he declared, in an article just floods. written by him, that "on his honour". M. Dolcassé had absolutely no part in the conception, the preparation, or the carrying out of the expedition, and that the name of Pashoda was pronounced for the first time in French political and diplomatic colonial circles in June, 1895. To these statements Col. Monteil has given a direct negative, as ho. himself received from the late President Carnot, in May 1893, in the presence of M. Delcassé, Under-Secretary of State for the Colonies, instructions to occupy Fashoda. Another statement made by Col. Marchand in his article was Ethat M. In his experiments with coloured lights Prof. Redard, of the University of Geneva, has found that red light excites the higher nerve centres to the extent of being irritating, while yellow light is calming and gives a general feeling of well-being. A further psychic effect of the blue light is a brief jusensibility to pain. A sixteen candle power electric light, enclosed in a blue glass globe, is placed a few inches in front of the patient's gyes, his head and the lamp are covered with a blue cloth, and he is told to stare at the light and he will feel no pain. In two or three minutes the patient is found to be in a condition of general anaesthesia, which is sufficiently deep to render painless any brief dental or surgical operation. Prof. Redard has . THE LATE MAJOR VON WISSMANN.

About ten days ago we reproduced from the Times of Ccylon an item relating to the death of the famous Gorman explorer, Major von Wissmann, which was a reprint from a London paper. As our first report showed, the deceased gentleman shot himself by accident, and the omission of the last two words in the second reference suggested suicide. The correspondent who calls our attention to this, adds that the story that Major von Wissmann was out of favour with the Emperor (on recount of his views of German colonial policy) is quite
